

Essex County College, November 12, 2008

Participation is requested for a GIS Day event to be held on November 12 at the college. Alison Hayes, the GIS Coordinator at Essex County College invites GIS professionals to participate by attending, hosting displays and answering questions about GIS, providing maps that will educate the college community about the benefits of geospatial technology.

Burlington County College, November 19, 2008

Join us for a GIS Day event at Burlington County College in Mount Laurel, NJ. This event should have something for everyone; from speakers on basics of GPS to advanced topics such as LIDAR plus interactive GPS and GIS workshops. Please see the attached flyer for details and register at www.njgis.com (attendance and lunch are free but registration is required).

*** We are still accepting maps for display in the map gallery ***
All entries will be accepted from beginner to advanced.
Please send your map to me either as hardcopy to the mailing address below or as a PDF or JPEG to the email address below.

Please include your name, organization and a brief abstract about your map. Maps that show how GIS or GPS was used to answer a question, make a decision or make someone's work easier are especially of interest.

Atlantic Cape Community College, November 19, 2008

www.atlantic.edu/gis

Atlantic Cape Community College, in southern New Jersey, is planning to introduce courses in Geographic Information Systems (GIS). To raise GIS awareness on campus, we are hosting a "GIS Day" event on November 19, 2008.

Students, faculty, GIS practitioners and those interested in GIS are invited to attend a GIS Day event on November 19, 2008, being held on each campus of Atlantic Cape Community College (Mays Landing, Atlantic City, or Cape May Court House). GIS experts are invited to set up a display, and answer questions from students, administration, and faculty concerning what they do with GIS (contact Loretta Dicker for details on having a display).
